

MORE THAN
50
YEARS
OF SATELLITE TRACKING

NPC SYSTEM, LEADER IN SATELLITE TRACKING SYSTEMS

With more than 50 years of experience in satellite tracking and more than 900 systems installed in over 70 countries, NPC SYSTEM proudly continues to develop and supply NEYRPIC® satellite tracking systems for the civilian and military markets. Though a series of mergers and acquisitions from NEYRPIC® to Alstom to General Electric and finally to NPC SYSTEM in 2018, NEYRPIC® satellite tracking systems have provided a reliable tracking solution to customers. NPC SYSTEM carries on NEYRPIC's know-how in designing tracking systems for all types and sizes of fixed and mobile antennas.

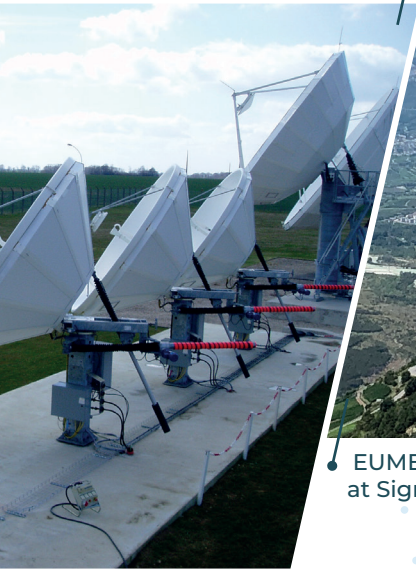

CUSTOMER SOLUTIONS :

Our customers are at the heart of our business model and guide our continuous improvement. We provide a wide range of innovative products which can be tailored to specific customer's application from simple Steptrack to sophisticated monopulse used in LEOP and TT&C critical missions.

PRODUCT OFFERING

NPC SYSTEM carries 50 years of NEYRPIC's know-how in satellite tracking systems. NPC SYSTEM strive to provide its customers the most reliable product to ensure the finest satellite tracking system on the market. NPC SYSTEM supplies Antenna Controllers (ACU), Power Drive Unit (PDU), motors (DC, AC, brushless), optical encoders, limit switches, Monopulse RF scanner plate and tracking receivers for fixed and transportable antennas.

EUTELSAT GROUP

Continuous upgrade program with ACU550 controller

- Vertex, Andrew and Alcatel antennas
- C and Ku Band
- Complete monopulse tracking upgrade on Vertex 9.30m monopulse antenna

SPACE NORWAY

4 Systems installed in NORWAY

- 2 x 9.30 m Vertex antenna monopulse Ku Band
- 13 m Vertex antenna monopulse Ku band
- 8 m Vertex 8m steptrack Ku band

GLOBALSTAR

140 new systems installed on Alcatel antennas.

- Customized Antenna Control Unit and Power Drive Units
- LEO satellite tracking with Zenithal pass
- Remote monitoring and control

SPACE42

4 x 9.2m Ka Band Monopulse
2 x 9.3m Ku Band Steptrack
9.3m and 13m monopulse C band
20 transportable systems for 2.4m Ka band antennas

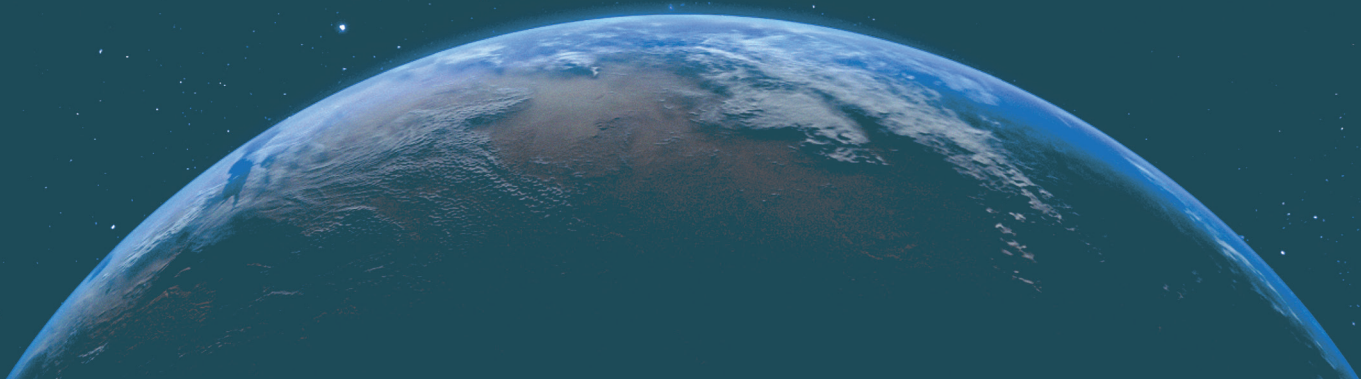

ARABSAT

More 16 antennas
7.10m to 13m steptrack and monopulse
C to Ka band

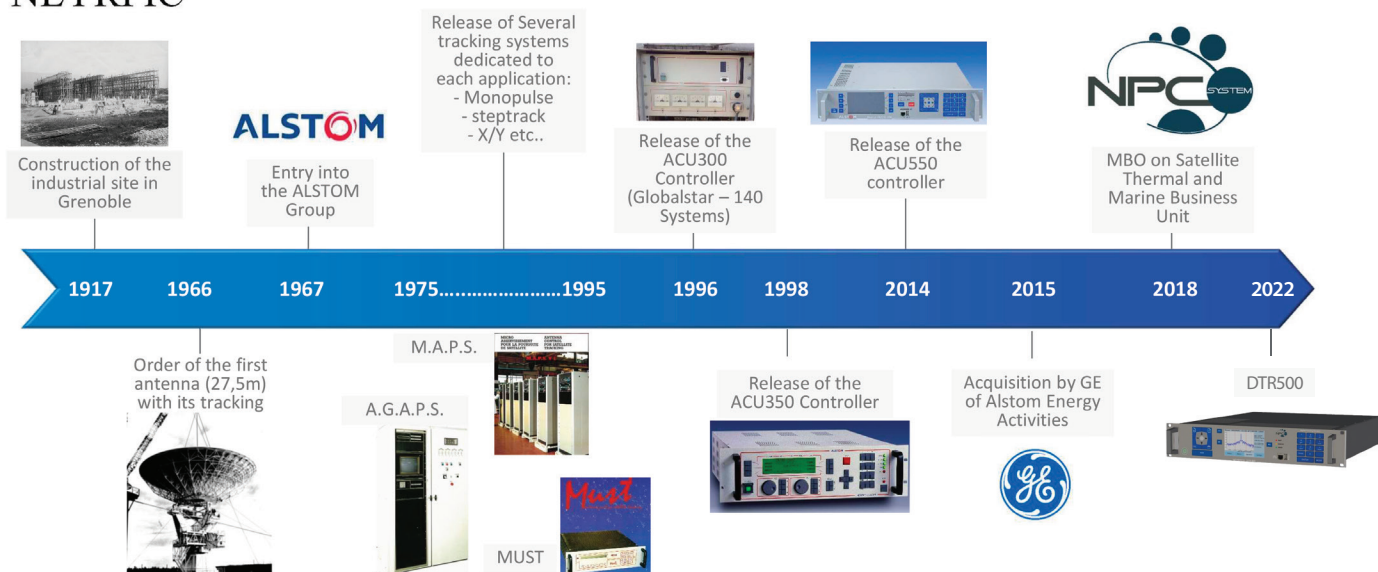

SATELLITE TRACKING SERVICES

NPC SYSTEM offers technical assistance and support services for NEYRPIC® Satellite tracking systems installed. NPC SYSTEM provides custom service packages from requirement audits, technical surveys, complete or partial replacement, training at our facility or on site, and long-term service agreement.
